Mr. Driscoll provided historical background on the development of the budget. He stated that the Council's action at this meeting would be the provision of the revenue for the water and sewer services.

Mr. Tracy, Town Auditor/Assistant Town Manager for Financial Services, made a [presentation regarding the rates](#). He stated the budget for water and sewer services was \$19,340,902: \$10,945,624 for Sewer and \$8,395,278 for Water. The MWRA assessments were the largest portion of the budgets: \$6,735,163 or 62% of the Sewer Budget and \$3,899,172 or 46% of the Water Budget. These assessments represent 55% of the overall water and sewer budgets. In addition, there was decrease of 3.5% in total water consumption, which was typical of MWRA communities. It is estimated that an average customer using customer using 2500 cubic feet will see an increase of \$13.42/quarter.

Councilor Piccirilli moved to adopt the Fiscal Year 2020 Water and Sewer Rates as proposed; Councilor Woodland seconded the motion.

In the discussion, the following matters were addressed:

- ♦ The rate increase is due to the increase of costs and the decrease in consumption which then requires increased rates to cover the costs
- ♦ From a conservation perspective, the 7.9% decrease in consumption is to be commended
- ♦ The Town's population has increased but consumption has decreased
- ♦ Much of the costs are related to debt service which are fixed costs and related services that the Town provides the Enterprise

President Sideris stated the salary increase would be from \$3,200 to \$4,500 per year. It would not take effect until January 1, 2020 with the last increase being in 2008. The main reasons for the request is the increased time commitment by Committee members and a desire not to prevent young people who might have childcare costs from working on the School Committee. He also stated that as a member of the School Committee, he does not derive any salary from it as he is paid by the Town Council. President Sideris also reminded members that under Charter rules, the School Committee could not request another increase for at least two more years.

John Portz, Chair of the School Committee, stated that he wanted to reiterate President Sideris' comments. The impetus for the increase was the increased cost commitments and the desire not to preclude younger residents from serving due to childcare costs.

He felt the bids should be in by the end of 2019; that construction could begin in late February 2020 with completion by August 2020. The field

would be sodded then which can be used in a few weeks for casual use, but that sports use of the field should not be used until the Spring of 2021.
