4. Tectonic Therapeutic Permit application
  - Joseph Toth, Principal Scientist gave an overview of the company
  - The WBSC voted 4-0 to recommended the approval of Tectonic Therapeutics rDNA permit application once the following conditions are met, ?????
5. Selecta Biosciences registration application was tabled to a future date
6. Discussion of WBSC operations
  - Discussed a WBSC website. Mr. Ramdin and the Health department will create one
  - Minor updates to FAQ
    - The addition of the word West in front of Cambridge in *Q21. What type of individual is appropriate for the “non-affiliated member” of the IBC?* so that it will now read:  
“The “non-affiliated member” represents the interests of the surrounding community with respect to environmental and public health. Therefore, they should reside and/or work in Watertown, or reside in an adjacent municipality (Newton, Waltham, **West** Cambridge, Allston-Brighton). The unaffiliated member of the IBC can have no relationship with the institution other than their volunteer service on the IBC.”
    - The addition of a new question” *Q24. What level of detail is needed in the description of annual safety training and refresher training?* Safety training descriptions should include an outline of content appropriate to and tailored for the specific company& regulatory obligations. Topics can include OSHA, hazardous materials management, biosafety, etc.”
7. Mr. Ramdin updated the WBSC on upcoming applications
8. Adjourned
